Profile

Full-stack MERN developer with hands-on experience in building responsive, scalable, and user-friendly web applications. Skilled in React, Node.js, Express, and MongoDB with strong knowledge of modern frontend tools (Vite, Next.js) and backend integration (NestJS). Adept at implementing SSR/CSR strategies, optimizing performance, and delivering clean, maintainable code. Passionate about creating intuitive UI/UX designs and solving complex technical challenges. Proven ability to collaborate in agile teams and deliver projects from concept to deployment.

Work Experience

MindSpire Software House 6 MONTHS

Developer

Completed a 6-month tenure at Mindspire Software House, where I contributed to enhancing UI/UX designs, fixing critical bugs, and improving overall application performance. During this period, I gained hands-on experience with modern development tools and frameworks, strengthening my ability to deliver clean, user-friendly, and efficient solutions in a collaborative environment.

Self Training and Learning 2 Years

MERN Development

Engaged in two years of dedicated self-learning and practical training, during which I independently built multiple projects to strengthen my expertise in the MERN stack. This journey allowed me to explore modern frameworks, experiment with new tools, and develop problem-solving skills while applying industry best practices. Through these projects, I gained confidence in designing responsive interfaces, integrating backend services, and delivering complete end-to-end solutions.

Teaching 2 Months

High School Mathematics Teacher

Worked as a Mathematics teacher at the high school level for two months, delivering clear and engaging lessons that strengthened students' problem-solving and analytical skills. This role enhanced my communication, leadership, and mentoring abilities, while also refining my capacity to explain complex concepts in a structured and accessible way.

Education
